**Band:** Senior (Grades 9–12) · **Sessions:** 10 × 45 min · **Sanskrit:** Tri-doṣa

### Overview

Three patterns of internal rhythm — *vāta* (motion), *pitta* (transformation), and *kapha* (structure) — that Āyurveda uses to describe individual constitutional differences. Mapped to *pañcabhūta* from Module 2 and framed as wellness lens, NOT medical diagnosis.

### NEP 2020 alignment

- §4.6 — Integration of Indian Knowledge Systems
- §4.23 — Experiential learning (self-observation projects)
- §11.8 — Holistic, multidisciplinary education

### Key terms (this module)

- *doṣa* — humour / functional principle
- *vāta* — motion principle (wind, ākāśa+vāyu)
- *pitta* — transformation principle (fire, tejas+ap)
- *kapha* — structure principle (cohesion, ap+pṛthvī)
- *prakṛti* — innate constitution
- *vikṛti* — current imbalance

### Prerequisites

Module 2 (Panchabhūta) is recommended before this module. Modules 5 (Bindu Paddhati / dot addition) and 7 (×11 Multiplication) are useful prerequisites for Module 9 and 11.

### Materials needed (across 10 days)

- Notebook + pencils per student
- Whiteboard / chart paper

- (See `lesson-plan.md` for per-day material lists)

## Pacing notes

- Senior sessions are 45 min. Adjust if your block is different.
- Days 5 and 9 are buffer days — use to reinforce weaker concepts or extend stronger ones.
- The summative project (see [assessments/project-brief.md](#)) runs in parallel from Day 6 onward.

## Differentiation

- **For advanced students:** see [teacher-notes.md](#) for extension prompts.
- **For students needing more support:** simplify activities, do more pair-work, allow oral instead of written responses.

# Teacher Notes

## Teacher Notes — Doshas — Vāta, Pitta, Kapha (Senior)

### Common student misconceptions

- *“This is religious, not scientific.”* — Frame the tradition as historical observation. Pañcabhūta-like classifications of matter exist in many cultures. Indian astronomy and math are documented, peer-reviewed historical fields.
- *“The Sanskrit terms are just jargon.”* — Insist on the triple format (Sanskrit / IAST / meaning) once, then use the Sanskrit alone. The terms are precise; the discipline of using them properly is itself a learning outcome.
- *“If it’s traditional, it must work.”* — Distinguish empirical claims (testable) from ethical/aesthetic frames (which need separate justification). Encourage students to ask “how would I test this?”.

### Differentiation strategies

- **Extension for advanced students:** offer one optional “deeper read” per day — usually a primary source or modern paper.

- **Support for students needing scaffolds:** more pair-work, allow oral responses, provide partial outlines for writing prompts.
- **Multilingual classrooms:** Sanskrit terms are universal; vernacular equivalents (Hindi, Tamil, Telugu, Bengali, Marathi etc.) should be welcomed.

## Safety

- Any activity involving food, plants, fire, or outdoor work needs explicit safety briefing.
- See the relevant day file for activity-specific safety notes.

## Honest framing

- Where modern science clearly extends or revises traditional claims, say so.
- Where the tradition's framing is best understood as ethical/aesthetic, present it as such (not as competing science).
- Where attribution is debated (e.g., the “Vedic” status of Tirthaji's mathematics), present the debate honestly.

## End-of-module reflection (for teachers)

- Which concepts landed well? Which didn't?
- Which students grew most? Which need a different approach next module?
- Add notes to `teacher-notes.md` for the next teacher who uses this pack.

## Sources

### Sources — Doshas — Vāta, Pitta, Kapha (Senior)

#### Primary and secondary sources

- Caraka Saṁhitā, *Sūtrasthāna* 1.57–58 (definition of three doṣas)
- Aṣṭāṅga Hṛdaya, *Sūtrasthāna* 1.7 (doṣa-dhātu-mala framework)
- Robert Svoboda, *Prakriti: Your Ayurvedic Constitution* (1998) — modern intro
- NCERT Biology Class XII, Chapter on human physiology (compare physiological rhythms)

#### A note on citation discipline

Per the curriculum's style guide, citations must be verifiable. If a verse number, page, or attribution cannot be confirmed, the source is paraphrased without invented attribution. Where direct quotes appear in Senior-band day files, the source is identified in IAST + edition.

#### For deeper reading

- The shared glossary at `curriculum/_shared/glossary.md` contains the IAST + meaning for every Sanskrit term used.
