Parent Guide — Project Implementation — Capstone (Senior)

What is your child learning?

The capstone module of the curriculum. Students choose from a menu of applied projects (or design their own) that draw on concepts from Modules 1–14. They scope, research, design, build, document, and present. Process discipline — daily journal, source citations, honest reflection — is part of the assessment.

Why this matters

This module is part of an Indian Knowledge Systems curriculum that introduces classical Indian frameworks alongside their modern-scientific parallels. Your child will learn to (a) name and use precise Sanskrit terms, (b) understand the observational basis for the classical framework, and (c) relate it to current scientific or scholarly understanding.

What you can do at home

This is the capstone module — your child picks a project drawing on the whole curriculum. Encourage their choice (don't pick for them). Ask them about their progress each day. Attend the share day if you can. **Safety:** pañcagavya projects in school MUST use fermented-foods comparative study (curd, paneer, batter), NOT cow-urine ingestion.

Conversation prompts

Try one of these over a meal or walk:

1. “What’s one Sanskrit word you learned this week? What does it mean?”
2. “What did you find surprising in this module?”
3. “Is there anything you’re not sure about? Let’s look it up together.”
4. “How would you explain this to your grandmother / grandfather?”

Questions parents often ask

Q: Is this religious instruction? A: No. The module presents Indian classical frameworks (cosmology, mathematics, astronomy, ecology) as historical knowledge systems with their own logic and method. The framing is scholarly and comparative, not devotional.

Q: Will my child be tested on Sanskrit? A: Sanskrit terms are introduced for precision, not for rote memorisation. The summative quiz asks students to *use* the terms — for example, “Which *doṣa* is dominant in the morning hours?” — rather than translate them.

Q: How does this connect to NCERT / board syllabus? A: This module supplements (does not replace) NCERT content. NEP 2020 §4.6 calls for the integration of Indian Knowledge Systems. The pack’s `README.md` lists the specific NEP principles each module advances.

Reading further (for parents)

See `sources.md` in this pack for the full source list.

10-Day Lesson Plan

Lesson Plan — Project Implementation — Capstone (Senior)

10-day arc, 45 min per session.

Day 1 — Capstone Overview and Project Menu

Objective: Review the 10-option project menu; pick a project.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 2 — Scope and Plan

Objective: Write a 1-page project plan: problem, sources, deliverable, deadline.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 3 — Research — Day 1

Objective: Gather sources; cross-reference earlier modules.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 4 — Research — Day 2

Objective: Continue research; sketch initial design.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 5 — Mid-Project Critique

Objective: Pairs swap plans; offer one strength + one concern.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 6 — Build / Make — Day 1

Objective: Start building the artefact (model, poster, deck, garden plot).

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 7 — Build / Make — Day 2

Objective: Continue building; daily journal entry.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 8 — Document

Objective: Write up process, sources, reflections (~500 words for Senior).

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 9 — Rehearse Presentation

Objective: Pair feedback on final presentation; refine.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Day 10 — Project Share Day

Objective: Present project to peers + parents; complete self-assessment.

Flow: Warm-up (5 min) · Core (20 min) · Activity (15 min) · Wrap-up (5 min)

Pacing notes

- Senior sessions are 45 min. Adjust if your block is different.
- Days 5 and 9 are buffer days — use to reinforce weaker concepts or extend stronger ones.
- The summative project (see [assessments/project-brief.md](#)) runs in parallel from Day 6 onward.

Differentiation

- **For advanced students:** see [teacher-notes.md](#) for extension prompts.
- **For students needing more support:** simplify activities, do more pair-work, allow oral instead of written responses.

Homework

Homework — Project Implementation — Capstone (Senior)

Light daily tasks. Each takes 10–15 minutes.

1. **Day 1 — Capstone Overview and Project Menu** · Write 2 sentences about today's concept. (~10 min)
2. **Day 2 — Scope and Plan** · Write 2 sentences about today's concept. (~10 min)
3. **Day 3 — Research — Day 1** · Write 2 sentences about today's concept. (~10 min)
4. **Day 4 — Research — Day 2** · Write 2 sentences about today's concept. (~10 min)
5. **Day 5 — Mid-Project Critique** · Write 2 sentences about today's concept. (~10 min)
6. **Day 6 — Build / Make — Day 1** · Write 2 sentences about today's concept. (~10 min)
7. **Day 7 — Build / Make — Day 2** · Write 2 sentences about today's concept. (~10 min)
8. **Day 8 — Document** · Write 2 sentences about today's concept. (~10 min)
9. **Day 9 — Rehearse Presentation** · Write 2 sentences about today's concept. (~10 min)
10. **Day 10 — Project Share Day** · Write 2 sentences about today's concept. (~10 min)

Notes

- Homework is intended to consolidate what was learned in class, not introduce new content.
- If a child struggles, the parent should consult the teacher rather than push.
- Capstone project days (Module 15) may have lighter daily homework so students can focus on the project.
