

Day 3 — Pitta, the Fire Friend

Module: Three Friends (Primary) · **Time:** 30 min

Goal

Children explore Pitta through warmth observation and stories.

Materials

- A warm tube light or sunny window
- Drawing paper

Flow

Settle + chant (3 min)

Story (8 min)

“Today: Pitta — the FIRE friend. Pitta is hot. Pitta helps cook your food inside you.”

“What does Pitta do?” - Helps you digest lunch. - Gives you energy. - Makes your eyes see colours.

“When Pitta is loud, you feel SHARP and FOCUSED. You can finish things. You’re determined.”

“When Pitta is TOO loud, you feel ANGRY or HUNGRY or HOT. Sometimes you snap at your friends.”

Feel-the-fire activity (12 min)

- Stand at a sunny window or under a tube light.
- Hold your hand out. *“Feel the warmth? That’s Pitta-like — outside warmth.”*
- Touch your tummy. *“What’s happening in here? Pitta is working on your lunch.”*
- Touch your eyes (carefully). *“What do you see right now? Pitta makes seeing possible.”*

“To calm Pitta when it’s too loud: cool water. Take a walk. Talk to a friend. Don’t skip meals.”

Drawing (5 min)

Draw your Pitta friend doing something focused.

Show + chant (2 min)

Homework

- Notice tomorrow: when does YOUR Pitta seem loud? (When hungry? When focused?)

Differentiation

- **Tier up:** Try this: when you feel a bit angry tomorrow, drink water FIRST. Note what changes.
- **Tier down:** Remember: Pitta = fire = digestion + focus.
