Parent Guide — Module 1 (Primary): Five Gifts from India

Your child's age: Primary (Grades 3–5) · **Module length:** 10 sessions × 30 min

What your child is learning

Five things India “gave to the world” — concepts and practices that we use or hear about every day:

1. **Zero** — the number we count with.
2. **Yoga** — moving with breath.
3. **Ayurveda** — old Indian wellness.
4. **Vedic Math** — fast counting tricks.
5. **Indian classical music** — rāga.

The whole module is intentionally light and story-led. No paper tests. By the end, your child can name all five and tell a 30-second story about their favourite one.

What to expect

- A daily chant: “Zero! Yoga! Ayurveda! Vedic Math! Music! Five gifts from India to the whole wide world!”
- Drawing every day.
- A Day 10 show-and-tell project (a poster, drawing, or 30-second story).

How to help

Helpful: - Ask “what was today’s gift?” at dinner. - Sing the chant with them. - Notice these gifts in real life: count something big together (zero), do tree pose, recognise turmeric as an Ayurvedic herb, listen to one rāga (any classical Indian recording).

Not helpful: - Quizzing them on Sanskrit terms (there aren’t many at this age). - Doing the project for them.

What success looks like

By Day 10 your child can: - Name 3+ of the 5 gifts. - Point to one in their own life. - Tell a 30-second story about their favourite gift.

That's it. Anything more is wonderful but not expected.

The Middle-band version covers the same material at depth — the Vedas, Vedangas, Upavedas, named achievements with dates. Preview: [curriculum/middle/module-01-what-is-iks/README.md](#).
