Parent Guide — Module 3 (Primary): Three Friends

Your child's age: Primary (Grades 3–5) · **Module length:** 10 sessions × 30 min

What your child is learning

Three friends from Ayurveda — Vāta, Pitta, Kapha — presented as personality friends in everyone's body. By Day 10 your child can name all three and tell a 30-second story about one.

Plus 3 healthy-habit ideas: **sleep on time, eat well, move every day.**

Safety note — important

Nothing in this module is medical advice. The three friends are a fun introduction to a 2000-year-old framework. We are NOT telling your child what their “type” is. We are NOT recommending treatments. If your child is unwell, see a doctor.

What to expect

- Story + drawing every day.
- A daily chant: “*Vāta, Pitta, Kapha — three friends inside me!*”
- A Day 10 show-and-tell project (drawings or models of their friends).

How to help

Helpful: - Ask at dinner: “Which friend was loudest today?” (Fidgety = Vāta; intense = Pitta; calm/sleepy = Kapha.) - Share family wellness traditions. - Help with project: paper, crayons, recycled junk for models.

Not helpful: - Saying “you’re a Vāta type.” We don’t label people. - Using the module as a reason to push lifestyle changes on your child. - Confusing this introduction with actual Ayurvedic medicine (which is a long, qualified field of practice).

What success looks like

- Your child names all 3 friends.
- They tell you ONE thing each friend likes.

- They give you a sense of their drawings.

Want to go deeper?

Middle band (Grade 6–8) covers Ayurveda properly — Tridosha, dinacharya, ahāra, BG 6.17.
