

Day 10 — Final Assessment

Module: ×11 Multiplication — Ekādhikena Pūrveṇa (Primary) · **Time:** 30 min

Goal

Take the summative quiz and reflect on which method works best.

Materials

- Notebook, pencils, drawing paper
- (See lesson-plan.md for any day-specific materials)

The flow

Settle + chant (3 min)

Daily chant or breathing exercise.

Story recall (4 min)

Briefly recall yesterday’s lesson by asking: “*What’s one thing you remember from yesterday?*”

Today’s idea (10 min)

- *Ekādhikena Pūrveṇa* (IAST: Ekādhikena Pūrveṇa; lit. ““by one more than the previous” — sūtra 1 in Tirthajī”)
- Final day! We celebrate the ×11 trick.

Each child shows their best ×11 problem to a partner. Cheer for each one.

Take the small quiz with stickers (every child gets a “Number Magician” sticker).

End: class chant — “*Split! Add! Middle! Magic!*”

Activity (8 min)

A simplified version of *Mental Math Sprint Cards* (see [activities/](#)). Draw, sing, or act it out.

Wrap-up (3 min)

Each child shares one word that describes today.

Homework

(See [homework.md](#).)

Teacher notes

- Citations belong in teacher notes only, not in student-facing material at this band.

- Keep new Sanskrit terms to one per lesson, repeated several times.
- If energy is low, swap the activity for free drawing.
