

Day 5 — Twelve Rāśis

Module: Movement of the Sun (Primary) · **Time:** 30 min

Goal

Name the 12 rāśis in Sanskrit and pair with Greek zodiac names.

Materials

- Notebook, pencils, drawing paper
- (See lesson-plan.md for any day-specific materials)

The flow

Settle + chant (3 min)

Daily chant or breathing exercise.

Story recall (4 min)

Briefly recall yesterday’s lesson by asking: “*What’s one thing you remember from yesterday?*”

Today’s idea (10 min)

- rāśi (IAST: rāśi; lit. “1/12th of the ecliptic; zodiacal sign”)
- The Sun visits 12 special “houses” each year!

Names (sing-chant): “*Meṣa, Vṛṣabha, Mithuna, Karka, Simha, Kanyā, Tulā, Vṛścika, Dhanus, Makara, Kumbha, Mīna!*”

Each “house” has a Sanskrit name AND a Greek name: - Meṣa = Aries (ram!), Vṛṣabha = Taurus (bull!), Mithuna = Gemini (twins!)...

Children pick one rāśi to draw. Today’s question: “*What’s YOUR birth-month rāśi?*”

Activity (8 min)

A simplified version of *Sunrise Direction Tracking* (see activities/). Draw, sing, or act it out.

Wrap-up (3 min)

Each child shares one word that describes today.

Homework

(See homework.md.)

Teacher notes

- Citations belong in teacher notes only, not in student-facing material at this band.
- Keep new Sanskrit terms to one per lesson, repeated several times.
- If energy is low, swap the activity for free drawing.
