

# Day 9 — From Ancient to Action

**Module:** Indic Ecology — Vasudhaiva Kuṭumbakam (Primary) · **Time:** 30 min

## Goal

Design one local environmental project applying an Indic-ecology principle.

## Materials

- Notebook, pencils, drawing paper
- (See lesson-plan.md for any day-specific materials)

## The flow

### Settle + chant (3 min)

Daily chant or breathing exercise.

### Story recall (4 min)

Briefly recall yesterday's lesson by asking: *“What's one thing you remember from yesterday?”*

### Today's idea (10 min)

- *devarakāḍu* (IAST: devarakāḍu; lit. “sacred grove (Karnataka, S. India)”)
- Time to PICK a project!
- Some ideas:
  1. **Plant trees** in our school garden
  2. **Save water** — turn off the tap when brushing
  3. **Sort waste** — separate paper, plastic, food
  4. **Make a poster** about saving Earth

Each child picks one project. Draws what they'll do. Names one Indian principle (Vasudhaiva Kuṭumbakam, Yajña, take-only-what-you-need).

### Activity (8 min)

A simplified version of *Sacred Grove (or Local Ecology) Mapping* (see activities/). Draw, sing, or act it out.

### Wrap-up (3 min)

Each child shares one word that describes today.

## Homework

(See homework.md.)

## Teacher notes

- Citations belong in teacher notes only, not in student-facing material at this band.
- Keep new Sanskrit terms to one per lesson, repeated several times.
- If energy is low, swap the activity for free drawing.
