

Day 9 — Design Your Own

Module: Magic Squares — Bhadrageṇita (Primary) · **Time:** 30 min

Goal

Create a personalised 4×4 or 5×5 magic square as visual art.

Materials

- Notebook, pencils, drawing paper
- (See lesson-plan.md for any day-specific materials)

The flow

Settle + chant (3 min)

Daily chant or breathing exercise.

Story recall (4 min)

Briefly recall yesterday's lesson by asking: “*What's one thing you remember from yesterday?*”

Today's idea (10 min)

- *kothumi vidhi* (IAST: kothumi vidhi; lit. “Nārāyaṇa's algorithm for odd-order squares”)
- Make YOUR OWN magic square as art!

Choose ANY 9 numbers (or use 1-9). Make a 3×3 grid where all rows add to the same. Decorate it!

Show example: a magic square shaped like a flower, with colours on each number. “*Math + art = magic!*”

Children draw, colour, and write their magic number at the top.

Activity (8 min)

A simplified version of *Class 3×3 Magic-Square Tournament* (see [activities/](#)). Draw, sing, or act it out.

Wrap-up (3 min)

Each child shares one word that describes today.

Homework

(See [homework.md](#).)

Teacher notes

- Citations belong in teacher notes only, not in student-facing material at this band.
- Keep new Sanskrit terms to one per lesson, repeated several times.
- If energy is low, swap the activity for free drawing.
