

Day 2 — Scope and Plan

Module: Project Implementation — Capstone · **Band:** Senior · **Time:** 45 min

Learning objective

By the end of this lesson, students will: write a 1-page project plan: problem, sources, deliverable, deadline.

Materials

- Whiteboard / chart paper
- Notebook, pen per student
- (See lesson-plan.md for any day-specific materials)

Vocabulary introduced today

- *pañcagavya* (IAST: pañcagavya; lit. “five-cow-product preparation (substituted with fermented-foods study for school safety)”)

Lesson flow

Warm-up (5 min)

- Daily check-in: one-sentence response to “*What’s one thing you remember about yesterday’s lesson?*”
- Hook: introduce a phenomenon or question that motivates today’s concept.

Core (20 min)

1. **Each student commits to ONE project.** Show of hands per option to see distribution.
2. **The one-page plan template.**
 - Title (~10 words)
 - Problem (~50 words): what question/need does this address?
 - Sources (~5 listed): the modules + texts you’ll draw from
 - Deliverable (~50 words): what will exist at the end?
 - Timeline (Day 3-10 broken down by phase)
 - Success criteria (3 bullet points: what makes this excellent?)
3. **Work-time.** 30 minutes of silent plan-writing.
4. **Pair-share.** Pairs swap plans, give one strength + one concern (sticky notes).
5. **Submit.** Plans go to the teacher tonight for sign-off. Tomorrow you begin research.

Activity (15 min)

A scaled version of *Mid-Project Critique Circle* (see [activities/](#)). Today's slice: focus on the part of the activity that reinforces Scope and Plan.

Wrap-up (5 min)

- One-sentence exit ticket: “*What’s one thing you learned today?*”
- Preview tomorrow.

Homework

(See `homework.md` for today’s task.)

Differentiation

- **Extension:** offer one open question or extra problem for fast finishers.
- **Support:** pair students who need scaffolds; offer partial outlines.
