

Day 4 — Research — Day 2

Module: Project Implementation — Capstone · **Band:** Senior · **Time:** 45 min

Learning objective

By the end of this lesson, students will: continue research; sketch initial design.

Materials

- Whiteboard / chart paper
- Notebook, pen per student
- (See lesson-plan.md for any day-specific materials)

Vocabulary introduced today

- *anvayana* (IAST: anvayana; lit. “integration / following-through; capstone synthesis”)

Lesson flow

Warm-up (5 min)

- Daily check-in: one-sentence response to “*What’s one thing you remember about yesterday’s lesson?*”
- Hook: introduce a phenomenon or question that motivates today’s concept.

Core (20 min)

1. **Continued research.** Today’s focus: sketches + design.
2. **The design-thinking question.** “*What will this LOOK like when it’s done?*” Draw it. Even a rough sketch helps you find missing pieces.
3. **Source check.** Revisit yesterday’s notes. Are there gaps? Look up one more source if needed.
4. **Work-time.** 30 minutes of sketching + planning the build.
5. **Pair-feedback.** Pairs discuss design. “*What’s the strongest part of your design? What’s still unclear?*”

Activity (15 min)

A scaled version of *Mid-Project Critique Circle* (see [activities/](#)). Today’s slice: focus on the part of the activity that reinforces Research — Day 2.

Wrap-up (5 min)

- One-sentence exit ticket: “*What’s one thing you learned today?*”
- Preview tomorrow.

Homework

(See `homework.md` for today's task.)

Differentiation

- **Extension:** offer one open question or extra problem for fast finishers.
- **Support:** pair students who need scaffolds; offer partial outlines.

Teacher notes

- Citations: at least one quoted verse with citation per module. Day 1 already includes one if applicable; you may add more.
- Connect to prior modules where natural (especially Module 2 *pañcabhūta*).
